SUPERVISORS HOLD REGULAR MEETING

BRIDGE BUILDERS REFUSE TO ENTER INTO CONTRACT AND FORFEIT DEPOSIT CHECK.

The Board of Supervisors met in regular session Monday, June 3d, there being present P. H. McEvoy, presiding, and D. E. Blackburn, W. H. Brown and Jos. M. Francis.

Motorcycle Officer M. F. Brown reported as follows since the last meeting of the board: Number of arrests, 7; convictions, 7; cases pending, 6; fines, $140.

T. A. Martenstein reported having made 6 arrests, of which cases there were 4 convictions, and 2 cases pending. Fines amounting to $100.

District Attorney Swart presented the documentary proof that an election had been held in the Millbrae school district on May 21st at which more than two-thirds of the citizens of the district voted in favor of a bond issue of $15,000 for the purpose of purchasing the ground and erecting a new school building. The bonds are to run fifteen years and bear interest at the rate of 5 per cent per annum.

On motion of Brown, seconded by McEvoy, the former action of the board declaring a similar bond issue in the Millbrae school district was rescinded on account of an error in the proceedings.

A resolution was adopted on motion of Brown, seconded by Blackburn, confirming the issue of bonds of the district and directing the clerk to publish notice offering the bonds for sale, bids to be received at the meeting to be held on Monday, June 17th.

On account of the absence of Supervisor Casey, consideration of the liquor licenses of his district was postponed until the next meeting.

The following applications for liquor licenses, having been presented at the first meeting in May were granted:

Third township—Ravenswood Investment Co. Class C; Charles Kreiss, Woodside.

Fourth township—T. C. Horigan, Moss Beach; J. V. Azavedo, Halfmoon Bay.

The following named liquor dealers gave notice that they would apply for licenses a month hence:

First township—New California Jockey Club; San Bruno; A. J. Wulich, Colma; John Beichle, Colma; Allen Allemand, Visitacion; Belli & Co., Colma; H. G. Ramaicotta Colma.

Second township—A. DeRoche, Belmont; M. A. Rand, Laguna.

Fourth township—J. V. Azavedo, Halfmoon Bay; P. P. Quinlan, Halfmoon Bay; Thos. K. Nutzen, Marine View.

Fifth township—F. S. Duarte, Pescadero; Edith Packard, San Gregorio; H. Frey, Pescadero.

A petition signed by the Beresford Country Club and eleven free holders of the Second township was presented asking that Moran avenue at Beresford be closed and abandoned.

Lee T. Ross and R. F. Chilcott were sworn, the former testifying to the genuineness of the signatures to the petition and the latter to the fact that the signers were property owners on the avneue.

Brown stated that a new road had been opened which would take the place of the avneue which it was desired to close.

A resolution was adopted on motion of Brown, seconded by Blackburn, fixing Monday, July 2d, as the time on which the matter will be heard by the board and the clerk was directed to publish notice to that effect.

A communication was received from Mrs. J. Johns, vice president of the Woman's Club of San Mateo requesting the board to make a donation from its exposition fund to assist in the erection of a building at the Panama-Pacific exposition at which the noted visitors of the world may be entertained.

It was on motion of Brown, seconded by Blackburn, directed that the clerk notify the several members of the exposition committee to be present at the next meting to organize and be informed as to their duties, and the communication referrred to them.

A communication was received from the Pacific Gas and Electric Company to the effect that it would be contrary to that company's contract with the county at this time to install additional lights in the Colma Lighting Distrct.

The chairman stated that the district was well supplied with funds and able to pay for what lights it needed. The communication was referred to the district attorney.

Surveyor Neuman reported that the Anderson bridge in the Fifth township was in need of repairs that would cost $475. The surveyor also reported that two other bridges in the Fifth township and a bridge on the Whipple road near the Marchand place in the Second township were in need of repairs. The report was accepted.

Brown was granted permission to construct a culvert in what is known as the King lane near Beresford.

On motion of Brown the clerk was directed to notify Col. H. C. Bowen of the United States army that unmounted maps of the county could be supplied him by the surveyor at a price of $2.50 each.

Surveyor Neuman reported that he would have his report on the county roads ready at the next meeting. It was agreed to receive the report and set a day for its consideration, after which, on the suggestion of Brown the Development Association and representatives of the different county municipalities would be invited to join with the board in its examination.

A communication was received from F. A. Hihn of Santa Cruz accompanied by maps of the proposed ocean boulevard in that county which it is planned will join the coast road of this county, making a continuous scenic boulevard to San Francisco. It was requested that the county prepare maps on a similar scale showing its road.

Brown stated that the matter would be discussed in San Francisco Friday at a meeting of the Supervisors' Committee on interurban relations when an effort would be made to interest the State Highway Commission in the building of the road.

On account of an error in the published notice setting a time for hearing on the matter of closing Alejandra and Emilie avenues at Fair Oaks, the clerk was directed to publish a new notice, making the correction and setting the time for hearing on June 17th.

The clerk reported that he had secured a settlement from the Wells-Fargo Company for damage done to plants that had been shipped to the courthouse grrounds.

The district attorney stated that electrical workers of the county desired that an ordinance be adopted regulating the wiring of houses, and that an inspector be appointed who shall receive as his remuneration fees to be paid by the builders.

On motion of Brown, seconded by Francis the matter was referred to Mr. Swart and the clerk was directed to secure the necessary data for incorporation in the ordinance.

Mr. Barrett, of Barrett and Foy, the successful bidders at the last meeting for the bridge across Frenchman's creek in the Fourth district, appeared before the board and renewed his request that he be released from his contract, stating that he had made a mistake in estimating the work and could not build the bridge at the price bid by him except at a heavy loss.

The matter was discussed at length, the members holding that to release the contractors would be setting a bad precedent.

Francis said that he had hoped to have the bridge completed early for the accommodation of the farmers of his district as it was in a dangerous condition.

The consensus of opinion was that the contractors should live up to the terms of their bid.

Mr. Barrett then gave notice that he would forfeit the check for $500 that had been deposited by him with his bid and that he would not enter into contract with the county.

On motion of Francis, seconded by Blackburn, the security check given by the contractors was declared forfeited to the county in the amount of $430, which is 10 per cent of the amount of the bid.

The clerk was directed to readvertise for bids to be received at the next meeting and it will be required that the successful bidder enter into contract within five days after the award.

Blackburn reported that the Cascade creek bridge in his district, near Steele, was in bad condition. On his motion, seconded by Francis, the surveyor was directed to estimate the cost of its repair.

Brown was given authority to ascertain the cost of purchasing and laying three-fourths of a mile of 2-inch water pipe on Ralston avenue at Belmont. He stated that a four-inch water main would shortly be laid on that avenue from which he would be permitted to draw water for his roads. Instead of laying a separate pipe he would apply the cost of such work to the contemplated water main, thereby securing to the county a permanent interest in that utility.

Chairman McEvoy was authorized to lay one-half a mile of inch pipe on the Canyada road to procure water for sprinkling.

The tax collector was authorized to secure extra clerical help for one month at a cost of $50.

On motion of Blackburn it was ordered that each member of the board be authorized to employ a special officer to enforce the dog-muzzling ordinance, at a monthly salary of $25, they to hold office two months. Said officers are to warn the owners of dogs that do not comply with the law and after twenty-four hours if such dogs are still unmuzzled they are to be killed and their bodies disposed of. For each dog so disposed of the officers are to receive $1.00.

JUDGE BUCK EXTENDS MERCY TO PENITENT CHECK-PASSER

Robert H. T. Olsen, who was brought back from Visalia a week ago by City Marshal Coleman to answer to a charge of forgery, in having passed a worthless check, was given a chance to reform Monday by Judge Buck. Olsen pleaded guilty but he expressed deep sorrow for his act and asked for an opportunity to repay the money that he had dishonestly obtained.

Instead of sending him to the penitentiary as his crime merited Judge Buck released Olsen on six months' probation, exacting from him a promise not to enter a saloon during that period and an agreement to find employment and to use his earnings toward compensating those from whom he had fraudulently secured money.

Olsen gladly agreed to the obligations imposed upon him and promised further to report monthly to the probation officer. Should he fail in any particular he will be subject to immediate arrest and imprisonment.

PENINSULA OAK TREES THREATENED BY PEST.

Professor Rennie W. Doane of the department of entomology at Stanford, who has been engaged by the state horticultural commission to go to Tahiti during the summer in search of parasites to combat the destructive Mediterranean fruitfly and the purple scale which causes a large damage annually to California fruit, has put off the journey in order to direct the fight against the pests which are threatening the live oaks and other large trees on the peninsula.

Several professional tree surgeons have been brought from the east to help in the campaign against the pests. The borers, entomological creatures allied to a species of the moth, are the ones threatening the oaks. They work their way from the bark to the heart by a circuitous route. The most effective method found of fighting them has been to inject a poisonous fluid in their holes then seal them up with cement.

Three Fire Alarms This Week

The Fire Department had three calls this week. Sunday morning at 8 o'clock there was a grass fire in Wellesley Park; no damage. Monday forenoon there was another grass fire in the Eastern addition. Some fencing was burned but the department was on hand in time to prevent further loss. Tuesday evening one of the young ladies at the Peninsula Laundry was cleaning a dress with gasoline and a small explosion occurred. The young lady screamed for help and an alarm was turned in to which the department quickly responded, but the fire was already extinguished.

LIBERAL TREATMENT FOR WATER USERS

Council is Preparing to Adopt New Regulations for City Distributing System

Although no great amount of business was disposed of at the meeting of the council Monday evening, the session was an unusually long one, much of the time being devoted to the discussion of proposed measures of public interest. Probably the most important of these measures was the preliminary consideration of a new ordinance for the regulation of the water system, which consumed some time and brought forth a number of material suggestions from the trustees. While no suggestions were made for a reduction of the rates, which are generally conceeded to be quite reasonable, it was made evident that it was the unanimous desire of the trustees to deal most liberally with the public in the matter of regulations and to give the cousum every possible advantage in the levying of charges. Drafts of the proposed new ordinance were distributed among the trustees for their consideration and it is probable that at the next meeting a satisfactory ordinance will be ready for formal introduction. Trustee Hahir was not present at the opening of the meeting but appeared in time to take part in the most important discussion.

A communication was presented from R. F. Chilcott declining to accept the appointment as city assessor because of the demands on his time of his private business. Trustee Deleau suggested the appointment of W. H. Kelso to the position. While the suggsetion met with the general approval of the trustees, the final selection was referred to the finance committee with power to act.

For the purchase of the recent issue of $30,000 bonds but one bid was received, that of G. G. Plymer & Co., of San Francisco, who offered a premium of $7.50 for the entire issue. While it was apparent that the trustees had not expected a very large premium, the seemingly insignificant offer was a stunner and for a time there was a strong disposition to decline the offer or at least to seek for a more liberal purchaser, and it required a considerable abount of persuasive argument on the part of G. G. Plymer, who was personally present to urge the transaction, to induce the completion of the sale. After some little discussion of the bid, Trustee Deleau offered a motion that the awarding of the sale be postponed until the next meeting of the council, and then it was that Mr. Plymer got busy. He urged that the unusually broken denominations into which it had been found necessary to divide the bonds made for bond brokers and thus accounted them an undesirable investment for the lack of competition and small premium offered. After he had become convinced that a delay of the bonds might necessitate a postponement of some of the important work, especially in the commencement of the needed street work, Trustee Deleau consented to withdraw his motion, and Trustee Hynding, after remarking that he feared the loss of time would more than offset any slight increase in premium which might be obtained, moved that the bid be accepted and a resolution authorizing the sale was adopted by a unanimous vote.

City Engineer Pioda was authorized to prepare a new map of the city, the understanding being that the cost was to include only the acutal cost of labor in preparing the drawings. The design of securing a new map at this time was explained to be the elimination of any possible errors in the present map, which was made at a time when it was impossible to secure accurate data, and to provide a document which might be adopted as an official map of the city.

Trustee Deleau called attention to the lack of light at the railroad crossing at Spruce street and suggested the installation of a light at that point. As it was explained that the needed light was included in the plans being prepared for extensions of the street lighting system no immediate action was considered necessary.

At the suggestion of Trustee Hynding, C. H. Offermann was employed as janitor on the city hall building at a salary of $10 per month. It was understood that this did not include special work, such as the cleaning of windows, for which an extra compensation will be provided as required.

Lon Cook was granted a rebate of the proportionate amount of one month on account of the unused portion of his liquor license, he having retired from the business on June 1st.

L. P. Behrens of the First National Bank was named as a representative of the city on the board of governors of the County Development Association in place of D. R. Stafford who had asked to be relieved from the duty.

At the suggestion of Trustee Hynding the superintendent of streets was directed to furnish the city clerk with a list of all owners of property who have neglected to obey the ordinance rquiring the cleaning of weeds from the streets. In this connection Chief Winter of the fire department called attenntion to the burden placed upon the members of the department who were compelled to neglect their work to respond to needless alarms caused by this carelessness of property owners and stated that unless some action was taken to prevent such frequent calls of this character the men would refuse to respond to the alarms. Trustee Hahir urged that some measures be taken to require owners of property to keep their premises free from dry weeds, which were becoming a serious menace in many places.

Chairman Merrill called attention to the fact that many of the old city records were scattered among numerous places of deposit and suggested as soon as possible these be collected and placed in the vault at the city hall and properly indexed.

Peter McKay, representing the Horstman Chemical Company asked permission to extend the company's spurtrack across Buckeye street on the south. Permission was granted with the understanding that adjacent owners may use the track and if it shall be removed whenever the board shall so direct.

Following a custom which has been in vogue for a number of years, members of Embarkadero Camp, Woodman of the World, and Robin Hood Circle, Women of Woodcraft, held their annual joint memorial exercises at the Odd Fellows Hall last Sunday afternoon. There was a good attendance of the members of both organizations, practically every seat in the large hall being occupied.

Mr. Farquhar of the Congregational church, and included the dedication of a monument to the menory of the late Paul Kraft, placed by the members of Embarkadero Camp.

An interesting features of the occasion was the memoriol address delivered by J. T. Vanhooser, the district organizer for the woodmen for the bay counties, who is recognized by the local members of the Order as an earnest and successful worker in his chosen fraternity. After dwelling eloquently upon the history of the ancient custom leading up to the universal practice of marking the resting place of the dead by monuments, Mr. Vanhooser paid glowing tribute to the memory of Paul Kraft and commended the fraternal spirit of the Order which provided for the splendid tribute to the memory of one whose nearest relative was in faraway Germany. At the close of the exercises committees of the two Orders visited Union Cemetery and strewed flowers over the graves of deceased members of the Orders resting in that sacred plat.

The services will begin with a solemn high mass on Sunday at 10:30 a. m. and close with solemn Benediction after the 9 oc'lock Mass Tuesday Morning.

At the solemn Mass Sunday morning a sermon on the history and meaning of the Devotion will be preached by the Rev. Francis Harvey M. A. profsesor of Greek and Latin classics at St. Patrick's Seminary. The music of the mass composed for the occasion will add largely to the solemnity of the service. Its themes are built on the ancient chants and its harmonies serve to illustrate the simple degnity and majesty of traditional church music. The music will be rendered by the choir of the Nativity, assisted by a number of singers from San Francisco, making some thirty voices in all.

Immediately after Mass a procession in honor of the Blessed Sacrament will be inaugurated within the church and proceeding without will move through the beautiful grounds surrounding the church to the majestic measure of the church's Hymn of Triumph, "The Pange Lingua" thence returning to the church where the Blessed Sacrament will be exposed for public worship on an elaborately draped altar.

STUDENT OF SEMINARY MEETS DEATH IN BAY

Eugene Cronin Browns While Bathing Off Dumbarton Point.

A peculiar and most lamentable accident occurred Monday afternoon when young Eugene Cronin, a student at St. Patrick's Seminary lost his life in the waters of the bay near Carnduff's landing. Accompanied by Michael Murray, Jas. Long, Thomas McKeon and Leonard Maddock, four other seminarians, Cronin left the college early in the afternoon to enjoy a bath near Dumbarton point. The students procured a boat and rowed out a quarter of a mile from shore. When returning to the pier Murray rowed the boat while his companions clung to the gunwales. When about 600 yards off shore Cronin swam away from the boat saying that he would make his way to shore alone. Suddenly he threw up his hands and sank. Efforts were made to rescue him but he did not come to the surface again. The young men hastened to the Carnduff place and procured the aid of William Carnduff who finally dragged the lifeless body of Cronin from the creek, 25 minutes after he had sank. Efforts to save the young man were unavailing. It is supposed that he had taken cramps. Requiem services for deceased were held at the seminary Tuesday after which the body of the deceased was sent to his parents at Oakland. He was 23 years old and in two years would have been ordained into the priesthood.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No charge can be made by the Assessor after he turnes over his books to the Boasd of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor as well as to yourself, to have your assessment correct when you go to pay your taxes.

PILFERING YOUTHS WHO WERE AS SLY AS CATS.

Four school boys, Louis Freitas and his brother Aleck and Tom Brown and Walter Newell, whose ages are 10 years and under, who had been systematically pilfering the storeroom of Chamberlain's store for several weeks, were caught Tuesday by Marshal Coleman and haled into the Juvenile Court. Judge Buck committed Louis Freitas, who was the eldest of the quartet, to the reform school at Ione, while the others were allowed to go on probation.

The youngsters entered the storeroom through a small hole that was provided for the cats of the establishment and helped themselves to a supply of canned goods. Their last haul was a whole cheese which was too large to take through the opening and had to be cut up.
